NEW ENGLISH CHRYSANTHEMUMS

STOCK CLUMPS

Heavy fall work has prevented us until now in sending our list of stock plants of our lovely English Chrysanthemums, and judging from the inquiries we are receiving many of you are getting very anxious.

Those of you who have tried these lovely Chrysanthemums need no introduction to them. These Chrysanthemums are early blooming, making it possible to raise them where you have never been able to raise them before. And the large size of the bloom and brilliant color range makes them nothing short of sensational.

We have a surplus over and above what we need for our own spring propagating. This surplus is small in Lists Numbers 2 and 3 and when we sell down to our own requirements we will have to return your money. Better yet, **BE SURE AND MENTION A NUMBER OF SECOND CHOICE SELECTIONS.** It will help us and will keep you from being disappointed so much in case we are out of some of your selections.

We are offering these to you so you may propagate them in your greenhouse over the winter. We do not advise you to plant them this late in the open field. If you have no greenhouse facilities better wait until spring and order rooted cuttings.

Also please do not ask us to hold clumps for a later shipment; these offers are for immediate shipment only.

These prices are for nice field grown clumps dug fresh from the field the day your order is filled. The open winters we have here make this possible.

PLEASE HELP US BY SENDING YOUR ORDERS IN AS SOON AS YOU CAN.

HARDY ENGLISH CHRYSANTHEMUMS

List No. 1

	Each
ANTELOPE. Salmon amber with a distinct glow of orange inside the petals. Very large if disbudded. One of the last ones to bloom. Flowers on nice stiff stems.....	Oct. .50
ALFRETON BEAUTY. Bright golden amber. Large reflexing bloom. A real exhibition bloom when disbudded. We are partial to this one.....	Sept. .60
ALABASTER. A very early large white. Firm flowers about 5 inches across and slightly incurved.....	Aug. .50
ADORATION. Large pink flowers on a cream ground. Leave 8 blooms to the plant and you will adore it. Blooms are large and flat with pointed petals	Sept. .75
